President Manusardi may be written in letter of gold. We regret to say that at the time he received but assumed that the time he received hat small thanks, and it was more than hinted by some disaffected, and mittaken people, that he had sacrificed the interests of the town. One would have thought that the shareholders of the Water Company, might, have had a little more gratitude towards their directors, but Rgyr is still a posoliac country, and not long after, some of these shareholders, on based their directors, at a general meeting, that they appeared to think that if these gentlemen had much respect for themselves they should have rasigned and left their task to hands more capable of winging increased dividends out of the unfortunate inhabitants. The directors, however, after expressing their toget at not having pleased everybody, said they had endeavoured to do their duty, and meant to go on. The Municipality, with a real commendable when looked upon in the light of unkeequent events, did not lose more than two years before they asked the celebrated Dy. Hoch of Berlin to recommend them's specialist to enlighten them on the filtration question.

KHEDIVE PRESENT.

The presence of H.H. the Khedive and of Lord Oromer, the bright weather, and the oceasion of the 64th birthday of King Zebrard VII. drew large numbers of sightseers to this morning's review on Abdess-quare, Cairo, and though, as a spectacle, the sight was perhaps not as impressive as in 1504, owing to the redection of the Army of Occapation, there was still any smount of coloar and life in the scene, and the troops bore themselves admirably.

Comparisons are of course odious, and we BLOCKADE OF DARDANFLLES. LONDON, November 8.

admirably.

Comparisons are of course odious, and we have no intention of attempting them. We need only say that the parade moreonate were very good, the marching, dressing, wheeling, etc., being excellently carried out, and that the physique of the men was admirable. The British soldier in Egypt is a far more astifactory sight than too many of the rank and file of the line battalions that one sees at home, and which often appear to be composed of weetly boys.

By a quarter-past nine all the troops had moved into the square and taken up their positions, facing westward, the Rilise being on the left nearest the Palson, the inniskillings next, and the Royal Engineers, Mousted Linauty, and Royal Garrison Artilley on the right.

At 9.30 Lord Cromer drove up, the troops aducting to the strains of 'God save the King," while the Royal Standard was hoisted. The British Consol-General, after a short conversation with Brig-General Bollock, then drove along the rask, the troops presenting arms as he passed. SALVAGE OF DERELICT CRANE.

SALVAGES OF DERELICT CRANE

During the homeward voyage of the New coatte atsamer Aurole, from the Black Sas to Shidled, the crew came across a self-propelling floating crans, supported by means of a pontion about 100ft. long, used for ship repairing in rivers or harbors.

It was in the direct route of steamers bound from Cape Makapan to Cape Paccoro.

The Aurole took the pontions in tow with three 'lin. havear. For a time some of the sailors remained aboard the dereliet to hale out the water, but it labored so heavily in the heavy sees that they were obliged to come on board their own reseal.

The pontions crans, which was worth £15,000, was bound for Port Said, but nothing is known as to what has become of its crew or the tog which presents the transplict profit of the pontion of the crew or the tog which presents.

ROBBERY OF ANTIQUITIES

There have been a large and increasing number of robberies at Karnal lately among the workmen employed by M. Legrain in creavaring on behalf of the Department of Andiq idea. The most honest and hardest workers have one after the other been caught in the vary sot, and in every case the theft was due to the temptations put in the way of the workmen by the dealers in antiquities, who offer the men very high prices At Kursak there are agents paid by these dealers, who deliberately corrupt the workmen and the night watchmen.

(From the Journal of the Estitub Unamore of Commerce).
Whether the recent sinking of the S. S. Chatham in the Sunc Canal has acased attention to be drawn to the trade in explosives here we cannot say, but the fact remains that during the last few days we have had more than one enquiry asking for information on the subject. It may, therefore, be of interest to endry of our members if we give a few particulars rishing to the trade in question. So far as dynamite, gelatine, and the other higher explosives are concerned, a monopoly has been granted by the Egyptian Government to the well known firm of Messrs. Nobel, whose representatives here are Messrs. Thos. Cool and Son (Egypt), Ltd. The special authorisa-

representatives there are inserve, inco. Good and Snn (Egypt), I.d.d. The special authorisation is first action for years from the 29th March, 1914, and covers the whole of Egypt. The principal explorives imported by Mesers Nobel, area as follows:

(1) Dynamits. Used for quarrying purposes, principally at Marc, Tourah, and in Upper Egypt generally.

(2) Blusting Gelatins. The most powerful explosive known, containing about 93 % of intro-givenies solbithed by combining with it? % of a specially prepared nitr-cotton, and chefity employed in connection with the removal of wracks, of which a large number coors apunally in the Red Res, and along the coset between Agami and Marsah Matroch. purpose. Subselves powder is expressly included in the concession, but filled cartridges are encleded. Anyone is at liberty to import the latter, on receipt of the necessary permission from the Egyptian Ministry of War.

The monopoly does not extend to saltpetre used in the manufacture of matches, crockery, etc., although before importing the same for these priposes, the sanction of the Salt and Soda Co. must be obtained.

Prior to the 30th March, 1904, the duty collected by the Customa on all explosives was a special one of 12½ % On the date in question, however, the rate was reduced to the ordinary and valorem 8 % with the usual ½ % for quay charges.

Messrs. Nobel have special warehouses for dynamic, e.c., at Aboukir, Sankin, Saes, and Asourab, but no explosives may be removed. In addition to the Customs daties, the terms of the monopoly provide for the payment to the Government of £10 per ton on all high explosives imported into Egypt, and ten perfect of the net currest selling prices at the port of entry in respect of all detonators and fuses. SUGGESTED EXTENSION OF THE

The Constantinople correspondent of the "Frankfurter Zeitung" states that the Saltan no longer offers resistance in principle to the many years' desire of the Sunyara-Aldin Raal; way to extend the line. Either the fear of an extension of the Saglian spores of interest in that important part of Asia Minor has left the Saltan or political considerations of greater importance resider. His Majesty friendly to the scheme. Bagliah diplomacy, which has not obtained any noteworthy successes for twenty years, is now working at high pressure in order to secure the definite settlement of the Smyrna-Aldin Estir. The railway company is the only one there which does not receive a kilometre garantee from the Turkiah Government, but this is balanced by the favorable conditions railating to purchase. On the expiration of the concession in 1935, Turkey is under the obligation to purchase the railway at the rails of £,0000 per Roglish mile for the main line and £,0000 for the econdary lines.

It is now stated that England has asked for revoluncing of the convenience and in the revoluncing and the revoluncing of the convenience and the revoluncing of the convenience and the revoluncing and the revoluncing of the convenience and the revoluncing an It is now stated that England has asked for

It is now stated that Ragland has asked for a prolongation of the coocesion until 1935 and the continuation of the railway from its present strainers at Dimar to Lake Regentir and ten kilometerse beyond. The extension of the mus line would be about 140 kilometers in length. The correspondent remarks that the Beglish wishes further contemplate the organises into of a shipping service on Lake Regentir under the Tarkish flag, and that preferential rights are also desired for the construction of a suitaway to the port of Adalia and a second line to Sandakia. It will be shown whether all the Raglish demands will be able to depend upon the complaisance of the Saltan.

SIR E. CASSEL AND A PARIS BANK COMBINE

A great deal of interest has been aroused in Paris financial circles by the announcement of an arrangement between two French bankin institutions. It is well known that in importan of an arrangement between two Preson banking institutions, its well known that in important institutions, its well known that in important operations, mostly of international character, the dwo or air kip Paris banks always act together. In any case, there existed a co-operation during the last ten years of the Société Génale with the Banque de Paris et des Pays-Bas. To make the working still oleser and more affective, the two banks have decided to cast their lot into one, not by an amalgamation, but helie lot into one, not by an amalgamation, but helie lot into one, not by an amalgamation, but helie lot into one, not by an amalgamation, but helie lot into one, not by an amalgamation, but helie lot into one, not by an amalgamation of the Société Générale will increase its capital from fra. 150,000,000,000, one-half by a syndicate of the Société Générale will heats over by the Banque de Paris and the other half by a syndicate which, the "Unanapial News" corresponded to set which, the "Unanapial News" corresponded to set which, the "Unanapial News" corresponded to the Société Générale.
